Value to Your Clinic

- Compare financial, quality and operational performance
- Get access to rural relevant data including compensation and productivity metrics
- Learn from one another in a focused, statewide network environment
- Build a database to quantify the value of our country's rural practices

Lilypad[®] is a Maine-based analytics firm founded in 2011 to provide mobile and web-based performance improvement applications for healthcare provider organizations and State Offices of Rural Health. We adhere to a core business principle that accountable leaders require sound data and simple, innovative tools to be successful in their roles within the emerging value-based care delivery environment.
